EXECUTIVE SUMMARY

Introduction and Purpose

This report presents selected results from the survey of foster parents and caregivers conducted by the Social and Economic Sciences Research Center at Washington State University. This report is produced at the request of the Braam Panel, and contains only results for five Braam outcomes by race and ethnicity of foster parent or foster child.

The main purpose of the report is to compare the performance on the following five Braam outcomes: adequate training (C.1.1), adequate support (C.1.2), adequate information (C.1.3), behavioral health services (B.4.1), and sibling visits (E.2.1). Performance on these outcomes is analyzed and presented by the race of the foster parent or foster child and by the ethnic category of the foster parent or the foster child. Results are presented according to the following race and ethnic categories obtained from the survey:

Race

- Native American
- African American
- Asian/Pacific Islander
- Hispanic
- White
- Other/Multiple Races
- Not Reported

Ethnicity

- Non-Hispanic
- Hispanic
- Not Reported

These results are based on 1200 to 1350 interviews of foster parents and caregivers in each of the years 2007 through 2010. More detailed information about the survey methods and results is reported in the annual report, the most recent of which is entitled: Braam Outcomes for FY10 Survey of Foster Parents and Caregivers In Washington State. The report is posted on the Braam website:

<http://www.braampanel.org>

Cautions About Small Sample Sizes

The tables on the following two pages show the numbers of foster parents and foster children who participated in the surveys by race and ethnicity and whether or not the foster parent is licensed or unlicensed. As can be seen in these tables, some categories have very few foster parents or foster children. The main consequence of these low numbers is that any survey results and percentages based on these categories are very unstable. The results can vary dramatically from year to year simply because of one or two additional persons, or one or two fewer persons in the survey. The most affected race categories, because they have the fewest respondents are that of "Asian/Pacific Islander," "Other," and "Unknown." The most affected ethnic category is that of "Not Reported."

Key Findings

The outcome for C.1.1, adequate training has remained about the same for all race categories over the four years that the survey has been conducted. The overall average in 2007 was 88.1%, and in 2010 the overall average was 85.2%. This difference is within the margin of error of 3%. The outcome has remained remarkably stable over the past four years and there are few differences by either race or ethnicity. As seen in the chart below, African American caregivers report adequate training at the highest rate (92.1%), and caregivers not reporting their race at the lowest rate (82.1%). Among the remaining race categories about 86% report having received adequate training. The table on the next page displays the percent of caregivers in compliance by race and ethnicity for each of the past four years. The stability over the years is evident from the table. ***Note that the results presented below and on the next page are only for licensed caregivers.***

**C.1.1 Adequate Training by Race
Four Year Average - % In Compliance**

**C.1.1 Adequate Training by Ethnicity
Four Year Average - % In Compliance**

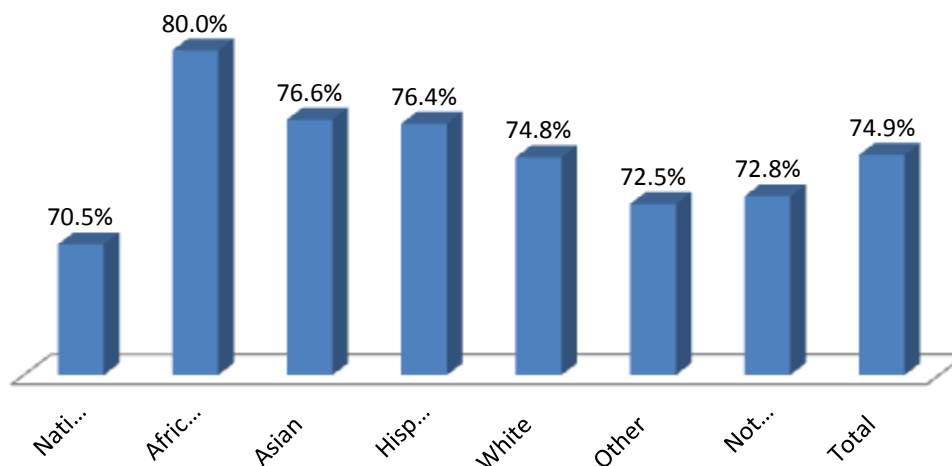

Summary of C.1.1 Adequate Training by Year

Race				
	2007	2008	2009	2010
Native Am	87.8%	91.2%	85.0%	82.2%
African Am	91.3%	88.5%	97.7%	91.8%
Asian	90.0%	90.0%	87.5%	77.8%
Hispanic	88.2%	77.6%	92.5%	86.9%
White	88.1%	86.5%	84.6%	84.8%
Other	90.0%	84.2%	92.3%	86.7%
Not Reported	71.4%	85.7%	88.9%	100.0%
Total	88.1%	86.4%	85.9%	85.2%

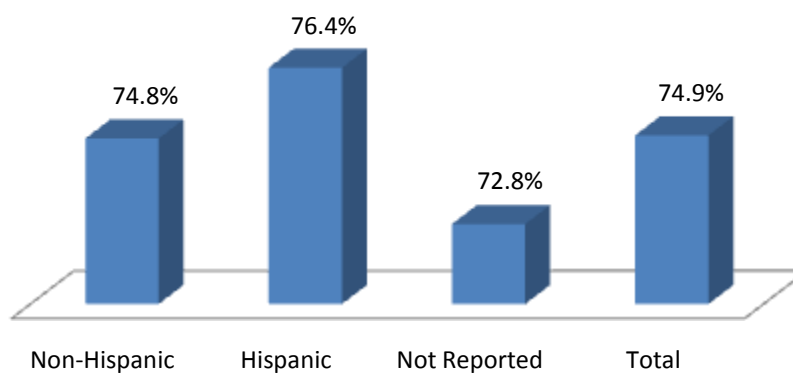

Ethnicity				
	2007	2008	2009	2010
Non-Hispanic	88.4%	86.9%	85.5%	85.0%
Hispanic	88.2%	77.6%	92.5%	86.9%
Not Reported	71.4%	85.7%	88.9%	100.0%
Total	88.1%	86.4%	85.9%	85.2%

The outcome for C.1.2, adequate support, has remained about the same for all race categories over the four years that the survey has been conducted. The overall average in 2007 was 75.7%, and in 2010 the overall average was 76.6%. This difference is within the margin of error of 3%. The outcome has remained fairly stable over the past four years, with again few significant differences by either race or ethnicity. As seen in the chart below for the four year average, African American caregivers report adequate support at the highest rate (80.0%), and Native American caregivers at the lowest rate (70.5%). The remaining race categories report adequate training at percentages of around 75%. ***Note that the results presented below and on the next page are only for licensed caregivers.***

**C.1.2 Adequate Support by Race
Four Year Average - % In Compliance**

**C.1.2 Adequate Support by Ethnicity
Four Year Average - % In Compliance**

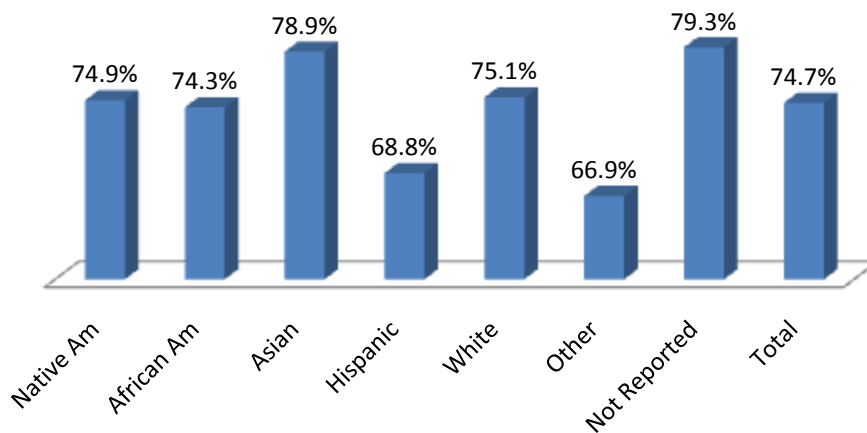

Summary of C.1.2 Adequate Support by Year

Race	2007	2008	2009	2010
Native Am	72.7%	74.5%	58.4%	74.0%
African Am	81.7%	74.8%	83.0%	81.2%
Asian	74.4%	68.3%	86.1%	79.3%
Hispanic	70.5%	77.2%	77.8%	78.0%
White	75.6%	76.3%	71.0%	76.2%
Other	78.2%	57.1%	72.7%	85.2%
Not Reported	82.8%	68.9%	70.6%	52.2%
Total	75.7%	75.6%	71.5%	76.6%

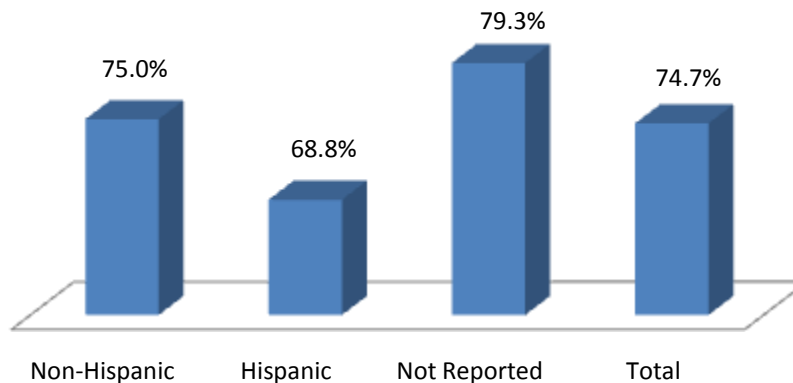

Ethnicity	2007	2008	2009	2010
Non-Hispanic	75.8%	75.5%	71.2%	76.6%
Hispanic	70.5%	77.2%	77.8%	78.0%
Not Reported	82.8%	68.9%	70.6%	52.2%
Total	75.7%	75.6%	71.5%	76.6%

The outcome for C.1.3, adequate information has increased for most race categories over the four years that the survey has been conducted. The overall average in 2007 was 72.8%, and in 2010 the overall average was 81.8%. However, the outcome shows a little more variability by race. For the four year average shown below, Asian/Pacific Islander caregivers along with those not reporting their race indicate adequate information at the highest rate (78.9% and 79.3%). Hispanic caregivers and those reporting another or multiple races, report adequate information at the lowest rate (68.8% and 66.9%). **Note that the results presented below and on the next page are only for licensed caregivers.**

**C.1.3 Adequate Information by Race
Four Year Average - % In Compliance**

**C.1.3 Adequate Information by Race
Four Year Average - % In Compliance**

Summary of C.1.3 Adequate Information by Year

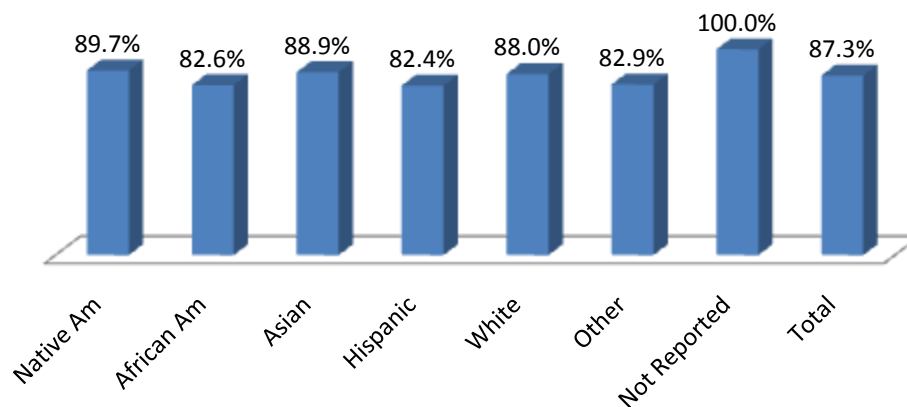

Race	2007	2008	2009	2010
Native Am	74.5%	76.2%	70.6%	80.6%
African Am	69.5%	66.4%	68.8%	94.3%
Asian	70.6%	69.0%	93.8%	90.0%
Hispanic	77.2%	54.5%	68.9%	75.5%
White	72.6%	74.4%	72.5%	81.5%
Other	94.4%	60.3%	50.0%	80.8%
Not Reported	56.3%	65.2%	95.3%	#DIV/0!
Total	72.8%	72.4%	72.3%	81.8%

Ethnicity	2007	2008	2009	2010
Non-Hispanic	72.7%	73.5%	72.1%	82.4%
Hispanic	77.2%	54.5%	68.9%	75.5%
Not Reported	56.3%	65.2%	95.3%	#DIV/0!
Total	72.8%	72.4%	72.3%	81.8%

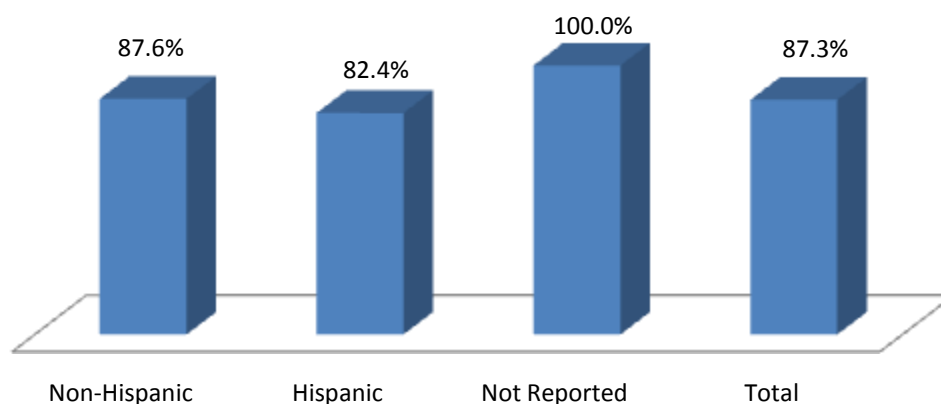

The outcome for B.4.1, behavioral health services has steadily improved for all race categories over the four years that the survey has been conducted. The overall average in 2007 was 76%, and this has increased to an overall average of 94.5% in 2010. The charts below show the four year average for all race categories and ethnic groups. Asian/Pacific Islander caregivers along with those not reporting their race indicate receiving behavioral health services from a single provider at the highest rate (88.9% and 100%). Hispanic and African American caregivers indicate receiving behavioral health services from a single provider at the lowest rate (82.4% and 82.6%). However, these four year averages hide the substantial increase in compliance rates shown over the four years by all of the race and ethnic groups.

Note that the results presented below and on the next page are for all caregivers both licensed and unlicensed, with race and ethnicity based on the foster child.

B.4.1 Behavioral Health Services by Race Four Year Average - % In Compliance

The outcome for E.2.1, sibling visits and contacts has increased for most race categories over the four years that the survey has been conducted. The overall average in 2007 was 47.3%, and in 2010 the overall average was 51.9%. The charts below show the four year average for all race categories and ethnic groups. Hispanic caregivers along with Asian/Pacific Islanders are the most likely to be in compliance with an average of 57% to 58% rate. Whites and those reporting another race or multiple races or not reporting a race, are least likely to be in compliance with an average of 50% rate. ***Note that the results presented below and on the next page are for all caregivers both licensed and unlicensed, with race and ethnicity based on the foster child.***

I. INTRODUCTION

Background

The SESRC designed and conducted an independent, statistically valid, anonymous telephone survey of foster parents and relative caregivers in Washington State. This survey has been conducted annually for the past four years. It is supported by Children's Administration of the Department of Social and Health Services, with the results shared with the Braam Oversight Panel. The survey asks foster parents and relative caregivers about their experiences during the previous calendar year.

The main purpose of the survey is to obtain information that is helpful to all areas of the Braam Settlement Agreement related to caregivers' work with foster children and associated outcomes and action steps. * The foster parent survey addresses all areas of the Braam Settlement Agreement: placement stability, mental health, foster parent training and information, unsafe and inappropriate placements, sibling separation, and services to adolescents. Several types of questions are included in the survey:

- Monitoring- Certain questions in the foster parent survey are being used by the Braam Oversight Panel to monitor Children's Administration's progress toward nine of the outcomes specified in the Braam Implementation Plan.* These specific questions are used to calculate outcome data as described in the document entitled "Braam Outcomes for FY10 Survey of Foster Parents and Caregivers in Washington State" and the accompanying appendix.

- Informational- Some questions in the foster parent survey are related to the goals of the Braam Settlement Agreement, but will not be used by the Braam Panel to monitor compliance with the agreement. In these areas, these data will be used by Children's Administration, providers, and stakeholders to better understand the experiences of foster parents and inform practice improvement. Data on all questions in the foster parent survey are provided in the document entitled "Braam Outcomes for FY10 Survey of Foster Parents and Caregivers in Washington State" and the accompanying appendix

- Demographic and background information- The foster parent survey includes a number of demographic and background questions.

In developing the original survey design, questionnaire, and procedures, the SESRC consulted with the Braam Oversight Panel, the Foster Parent Association of Washington State (FPAWS), the Children's Administration (CA), foster parent liaisons, and the Braam Survey Advisory Group. The survey questionnaire was extensively reviewed by foster parents, Braam Panel members, Children's Administration staff, and Braam plaintiffs' attorneys, to ensure that it would provide adequate measures of specific Braam Panel outcomes over time.

* The Braam Settlement Agreement and Implementation Plan are available online at <http://www.braampanel.org>

Population and Sample Plan

The sample plan for the survey was designed to represent all six DSHS regions in proportion to their representation in all of Washington State. The survey results are based only on active licensed caregivers, including those licensed through private agencies and those licensed through the state.

While the 2007 and 2008 surveys included inactive foster parents and relative caregivers, the 2009 and 2010 surveys were limited to only those foster parents and caregivers who had cared for a child during the previous six month period. Additionally, foster parents and caregivers who cared for children in guardianships or who had been adopted were also not included in the survey.

The population for the 2010 survey is all foster parents and relative caregivers who cared for a child or children placed in state custody in Washington State during the 2010 fiscal year. The sampling frame for this survey is the list of all foster parents and relative caregivers registered by the State of Washington who provided care to at least one child/youth during the 2010 fiscal year. Samples were pulled from this population on a quarterly basis for each quarterly survey.

The population for the 2009 survey was all foster parents and relative caregivers who cared for a child or children placed in state custody in Washington State during 2008. For the first half of 2009, a sample of caregivers was pulled from the list of all foster parents and relative caregivers registered by the State of Washington in March 2009. For the second half of 2009, samples were pulled from this population on a quarterly basis for each of the remaining quarterly surveys.

The population for the 2008 survey was all foster parents and relative caregivers who cared for a child or children placed in state custody in Washington State anytime during 2008. The sampling frame for the 2008 survey was the list of all foster parents and relative caregivers registered by the State of Washington in March 2008.

The population for the 2007 survey was all foster parents and relative caregivers who cared for a child or children placed in state custody in Washington State anytime during 2007. The sampling frame for the 2007 survey was the list of all foster parents and relative caregivers registered by the State of Washington in March 2007.

Race and Ethnicity Measurement for C.1.1, C.1.2, C.1.3

A single question in the demographics section of the questionnaire (displayed below) obtained information about the respondent's race and ethnicity. Respondents were allowed to select more than one type of race or ethnic category. The following two tables show the number of respondents by year, type, and race and ethnic category.

Q147. Please tell me the racial or ethnic background that best describes you. [IWR: Read categories if R gives you a race or ethnicity that does not fit the list.]

- 1 AMERICAN INDIAN
- 2 BLACK OR AFRICAN AMERICAN
- 3 ASIAN, HAWAIIAN, OR PACIFIC ISLANDER
- 4 HISPANIC OR LATIN AMERICAN
- 5 CAUCASIAN OR WHITE
- 6 ESKIMO OR ALEUT
- 7 MULTIPLE ETHNICITIES
- 8 SOME OTHER ETHNICITY
- 9 Not Sure

	Unknown	16	19	21	15	71
Total		815	862	885	1041	3603

Respondent Ethnicity * Survey Year Crosstabulation

Count		Survey Year				Total
		2007	2008	2009	2010	
Respondent Ethnicity	Non-Hispanic	764	794	822	964	3344
	Hispanic	35	49	42	62	188
	Not Reported	16	19	21	15	71
Total		815	862	885	1041	3603

For this analysis we combined the last three response categories (Eskimo or Aleut, multiple ethnicities, and some other ethnicity) into one "other" category, because of the few numbers of respondents in these categories. For instance, we have only had two respondents indicate that their race/ethnic group was Eskimo or Aleut, and both were unlicensed relative caregivers in the 2007 survey.

Respondents who preferred not to provide their race or ethnic category were coded as "not reported."

For purposes of this analysis each respondent was coded into one race and ethnic category. For respondents with multiple race/ethnic categories, we followed a rule adopted by Children's Administration, which orders the categories as follows:

- Native American
- African American
- Asian/Pacific Islander
- Hispanic
- White
- Other
- Not Reported

The number of respondents for some race and ethnic groups is even smaller when the data are tabulated by region, as shown in the tables below. Because of these small numbers, no attempt has been made to do any regional analysis of these outcomes. Note that the next two tables only show numbers of **licensed** caregivers.

Race and Ethnicity Measurement for B.4.1 and E.2.1

A single question in the questionnaire (displayed below) obtained information about the race and ethnicity of the child placed with the respondent. If more than one child was placed with caregivers, the respondent was allowed to select which child to answer questions for in the survey. Respondents were allowed to select more than one type of race or ethnic category.

Q43. Please tell me the racial or ethnic background that best describes this child. (IWR: Read categories if R gives you a race or ethnicity that does not fit the list.)

- 1 American Indian/Native American
- 2 Black or African American
- 3 Asian, Hawaiian, or Pacific Islander
- 4 Hispanic or Latin American
- 5 Caucasian or white
- 6 Eskimo or Aleut
- 7 Multiple ethnicities
- 8 Other ethnicity
- 9 Not Sure

For this analysis we combined the last three response categories (Eskimo or Aleut, multiple ethnicities, and some other ethnicity) into one "other" category, because of the few numbers of children in these categories.

Respondents who preferred not to provide the race or ethnic category for the child were coded as "Unknown."

For purposes of this analysis each child was coded into one race and ethnic category. For respondents with multiple race/ethnic categories, we followed a rule adopted by Children's Administration, which orders the categories as follows:

Native American
African American
Asian/Pacific Islander
Hispanic
White
Other
Unknown

The following two tables show the number of caregivers with a child, for each race and ethnic category by year and license type.

Child Ethnicity * LTYPE * Survey Year Crosstabulation

II. OUTCOME MEASUREMENT

Introduction

A number of specific questions in the foster parent survey are being used by the Braam Oversight Panel to monitor Children's Administration's progress toward eight outcomes specified in the Braam Implementation Plan. This report provides race/ethnicity information for caregivers and foster children as outlined below:

*The following measures apply to **licensed** caregivers and use race/ethnicity of caregiver:*

- C.1.1 Percentage of caregivers reporting adequate training for their roles and responsibilities (including but not limited to emotional, behavioral, developmental, medical, educational advocacy, birth parents and cultural competency).
- C.1.2 Percentage of caregivers reporting adequate support for their roles and responsibilities, by region and for the state as a whole (including but not limited to crisis support, timely notification about case planning meetings, and cultural competency resources).
- C.1.3 Percentage of caregivers reporting adequate provision of information about the needs of children placed with them, by region and for the state as a whole (including but not limited to behavioral, medical, developmental and educational needs).

*The following measures apply to **all** caregivers, and use race/ethnicity of the foster child:*

- B.4.1 Each child will receive behavioral health services from the same individual provider.
- E.2.1 Percentage of children placed apart from their siblings who have two or more monthly visits or contacts (not including staffing meetings or court events) with some or all of their siblings.

Limitations

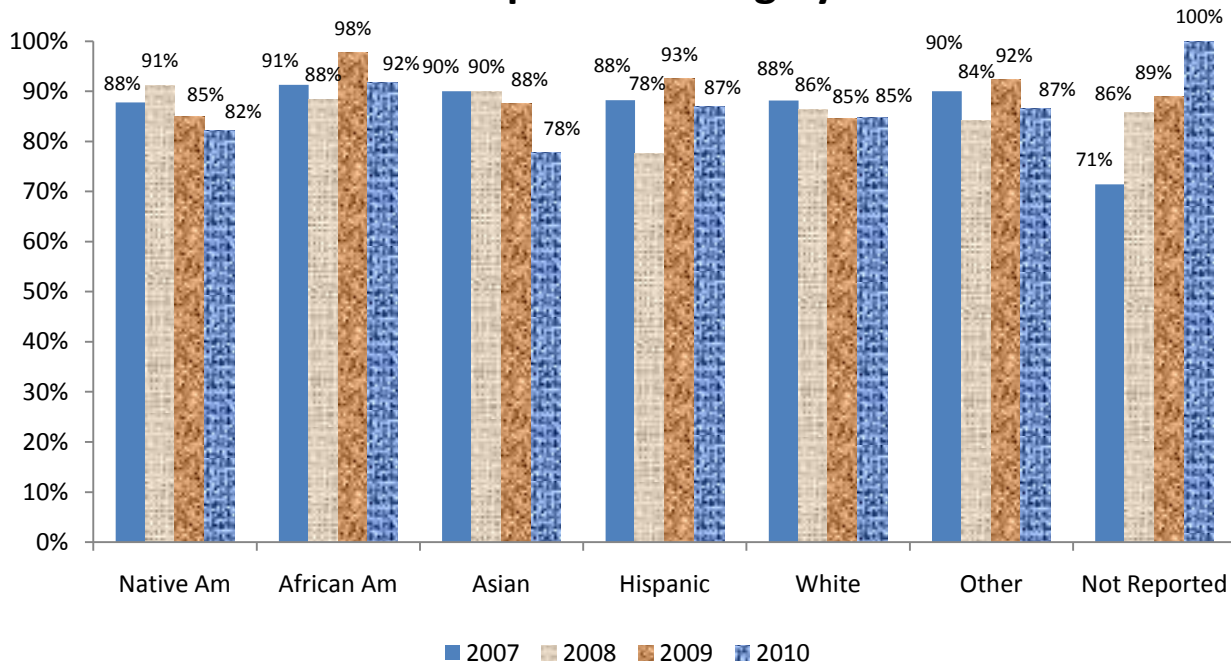

- Survey results for C.1.1, C.1.2, and C.1.3 are limited to **licensed foster parents** in each survey year. Survey results for B.4.1 and E.2.1 apply to licensed and unlicensed caregivers.
- There have been some changes in the measurement of these outcomes over the past three survey years; and these changes are described in each section.
- The overall outcomes for C.1.1 and C.1.2 for survey year 2007 are a half a point lower than what is reported in the outcomes report for 2007. This difference is due to a change between 2007 and 2008 in which variable was used to determine whether a caregiver was licensed or unlicensed. To ensure comparability of outcomes, the same variable used in 2008 and 2009 was applied to the 2007 survey data.
- Some race and ethnic categories have very few respondents, causing substantial fluctuations in the outcome measures from year to year. The sample error for any results based on fewer than 100 respondents may thus be quite high.

C.1.1

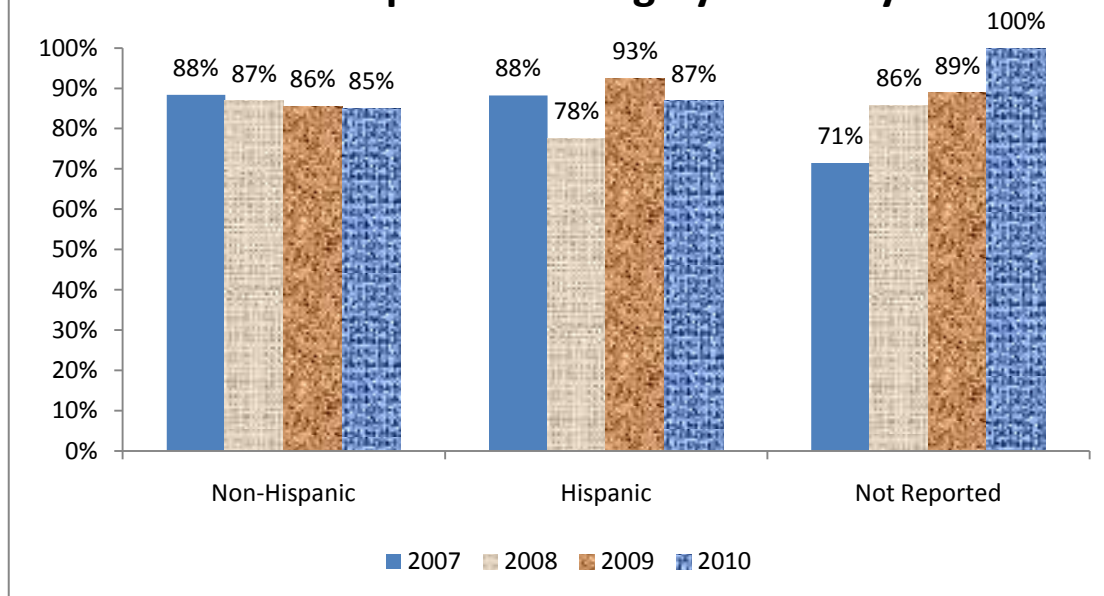

Percentage of licensed caregivers reporting adequate training for their role responsibilities (including but not limited to emotional, behavioral, developmental, medical, educational advocacy, birth parents and cultural competency).

Analysis Based on Race/Ethnicity of Licensed Respondents

C.1.1 Adequate Training by Race

C.1.1 Adequate Training by Ethnicity

C.1.1 Percentage of licensed caregivers reporting adequate training for their role responsibilities (including but not limited to emotional, behavioral, developmental, medical, educational advocacy, birth parents and cultural competency).

This outcome is measured by one question (Q27). This question asks foster parents to think about **all** of their training in the last three years and comment on its adequacy. It should be noted that although Q27 asks foster parents to consider only their training within the past three years, the outcome does not include this time limitation.

According to the Implementation Plan, this outcome applies to all **licensed** caregivers including foster parents and relative caregivers.

For the purposes of calculating this outcome, responses of “already prepared” and “have not had training” are counted as not applicable.

Outcome Results

Q27 *Overall, thinking about ALL of the training that you have had in the last three years, how adequately has it prepared you to care for the needs of foster children placed in your home? Would you say . . .*

C.1.2

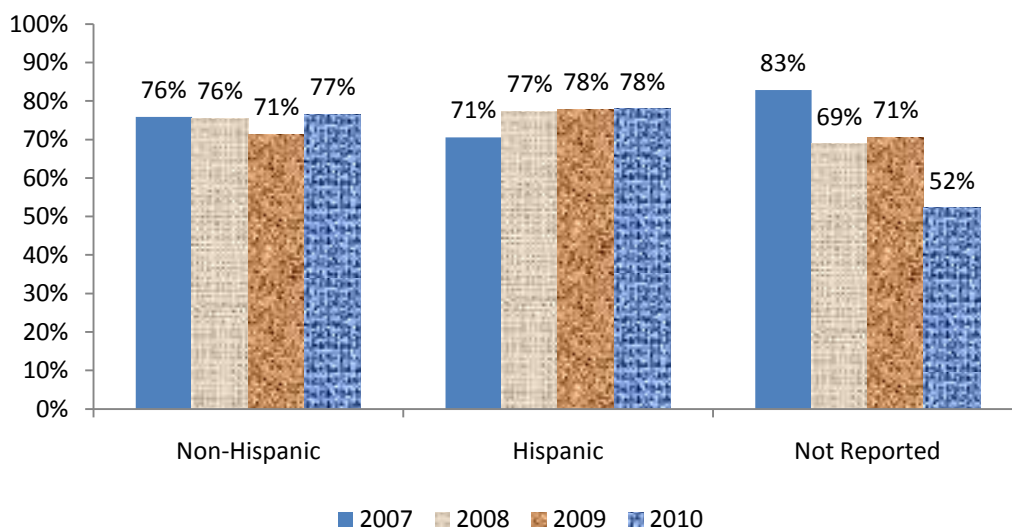

Percentage of licensed caregivers reporting adequate support for their roles and responsibilities, by region and for the state as a whole (including but not limited to crisis support, timely notification about case planning meetings, and cultural competency resources).

Analysis Based on Race/Ethnicity of Licensed Respondents

C.1.2 Adequate Support by Race

C.1.2 Adequate Support by Ethnicity

C.1.2 Percentage of licensed caregivers reporting adequate support for their roles and responsibilities, by region and for the state as a whole (including but not limited to crisis support, timely notification about case planning meetings, and cultural competency resources).

This outcome measure combines a total of seven questions: Q89, Q93, Q94, Q96, Q57, Q58, and Q78, but some questions are averaged so that equal weight is given to each of the four subsections of this outcome: support, cultural competency support, quality of help and support from the agency and social worker, and timely notification about case planning meetings. According to the Implementation Plan, this outcome applies to licensed relative and non-relative caregivers.

*Note: The results for Q78 were not factored into the outcome in the results for the 2007 survey, because the related policy had not been put in place in 2006. Q78, is however included in the outcome calculations for surveys conducted after 2007.

Outcome Results

Q89 The last time you had a crisis or emergency related to your role as a caregiver in 2006/2007/2008, and asked the agency for help, did you get a timely response? *

C.1.3

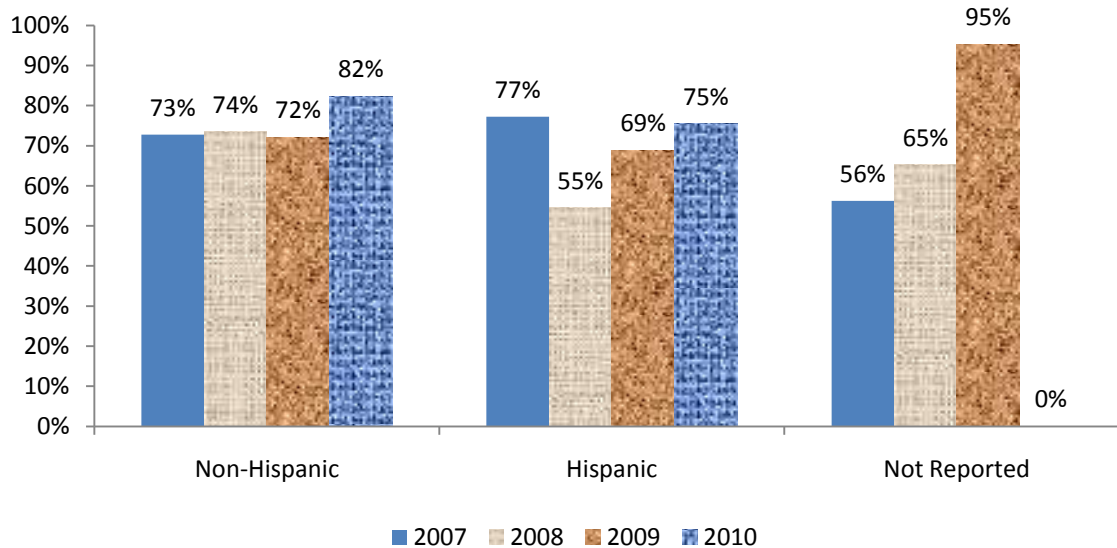

Percentage of licensed caregivers reporting adequate provision of information about the needs of children placed with them, by region and for the state as a whole (including but not limited to behavioral, medical, developmental, and educational needs).

Analysis Based on Race/Ethnicity of Licensed Respondents

C.1.3 Adequate Information by Race

C.1.3 Adequate Information by Ethnicity

C.1.3 Percentage of licensed caregivers reporting adequate provision of information about the needs of children placed with them, by region and for the state as a whole (including but not limited to behavioral, medical, developmental, and educational needs).

This outcome measure combines a total of eight questions: Q59, Q61, Q64, Q60, Q62, Q65, Q63A, and 63B and all questions are given equal weight. Questions refer to information provided to the caregiver at the time of placement. For some foster parents this will have been earlier than the year we are assessing. *The Panel has agreed that only cases for which placement with the current caregiver occurred during the prior year (or applicable period) will be factored into the outcome.* According to the Implementation Plan, this outcome applies to licensed caregivers only.

This outcome is restricted to only those foster parents whose children were placed with them in the year prior to the survey. Questions related to children's developmental needs (Q63A& 63B) were added for the survey covering 2007 and subsequent years based on revisions to the Implementation Plan.

C.1.3 Outcome Results (Licensed caregivers only)

In what month and year was this child placed in your home? (YEAR) *

B.4.1

Each child will receive behavioral health services from the same individual provider.

Analysis Based on Race/Ethnicity of the Child for all Caregivers

B.4.1 Each child will receive behavioral health services from the same individual provider.

This outcome has a screen question (Q68). Only foster parents who answer "yes" that during 2008 this child received mental health services are included in the calculation of this outcome.

An additional question (Q72) related to whether the foster parent feels that the change in clinician or treatment team was necessary to improve/maintain quality of care was added to the calculation of this outcome in the 2008 and 2009 surveys.

E.2.1

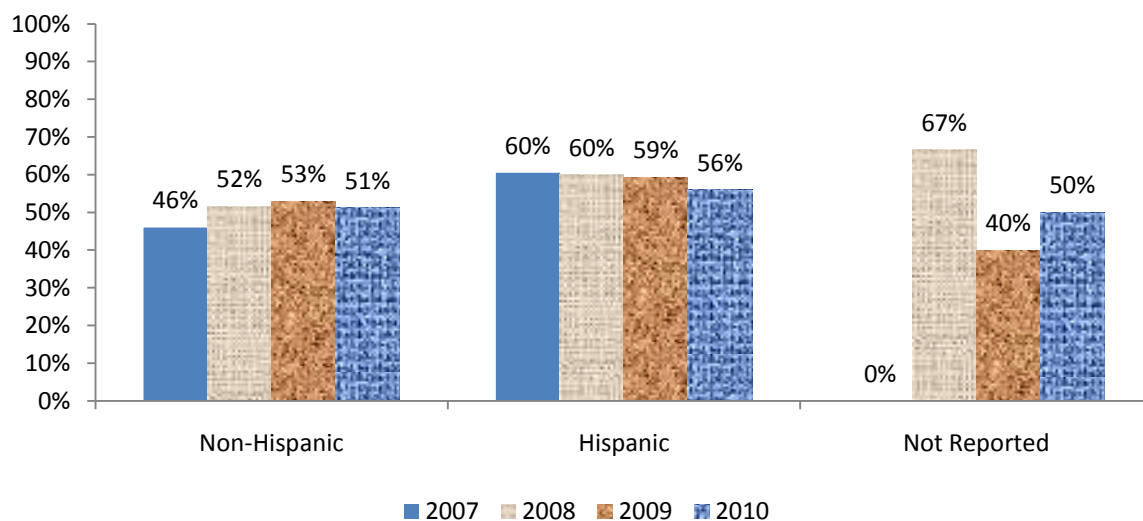

Percentage of children placed apart from their siblings who have two or more monthly visits or contacts (not including staffing meetings or court events) with some or all of their siblings.

Analysis Based on Race/Ethnicity of the Child for all Caregivers

E.2.1 Sibling Visits & Contacts by Race

E.2.1 Sibling Visits & Contacts by Ethnicity

E.2.1 Percentage of children placed apart from their siblings who have two or more monthly visits or contacts (not including staffing meetings or court events) with some or all of their siblings.

This outcome has three screen questions (Q125, Q126 and Q127). Only foster parents who indicate that the child has a sister or brother ("yes" to Q125), who was not placed in the foster parent's home in 2008 ("no" to Q126), and for whom contact was not disallowed by DCFS or the court ("no" to Q127) are included in the calculation of this outcome.

In the 2007 survey this outcome was measured by a single question which asked about visits and contacts with siblings. Beginning with the 2008 survey this question was separated into two questions, one about visits, and a second question about contacts.

Compliance is based on a total of two or more monthly visits or contacts. Responses are considered in compliance if there were two or more visits per month (Q128), two or more other forms of contact per month (Q128B), or through a combination of visits and contacts (combination of Q128 and Q128B).
